EXCLUSIVE CHARTER IN CROATIA

The interior and exterior furnishings draw on the experience of Achille Salvagni, one of AD Collector's top 100 international designers and included on the A-list drawn up by Elle Decor USA. The sophisticated style of a megayacht and the warm atmosphere created by Salvagni, who introduces a new style language borrowed from residential architecture, represent an absolutely unique feature for a boat of these dimensions.

The theme of curved lines is also a feature of the furniture and furnishings, which have been crafted according to Salvagni's designs by expert artisans, using forty different templates to create the curved sections. Salvagni uses extremely rich materials to conjure up the idea of the voyage, practical and sophisticated, with a close eye for detail and fine finishes, which represents an absolute novelty in the world of yachts this size.

DESCRIPTION:
